Experience

Nooklyn, iOS Engineer, January 2018 - present (2 years, 11 months)

- Architected a feature that let anyone post content on Nooklyn's online marketplace; over 50% of overall room inventory was created with this feature within a few weeks
- Eliminated dependence on 3rd-party services for identity verification by building a feature that uses Apple's Vision library to detect and validate drivers licenses in a live-camera feed
- Built flexible analytics tracking system that enabled us to track events with multiple services
- As the sole iOS engineer, I managed the end-to-end development of Nooklyn's iOS app from designing the UI/UX to architecting the networking layer to monitoring the analytics

Pilgramers, iOS Engineer, January 2017 - July 2017 (7 months)

- As technical co-founder, launched social networking app to help creatives find paid gigs
- Built notification system with action-triggered publishing on the server side and deeplink routing in the app

InfiniteTakes, iOS Engineer, June 2016 - December 2016 (7 months)

- Established color scheme system that let users toggle between light and dark UI
- Worked closely with UI designer to develop library of reusable views and animations

Geekin Radio, iOS Engineer, January 2015 - May 2016 (1 year, 6 months)

- Built music streaming app that reached #5 in the App Store's free music category
- Developed the Now Playing bar that lets users control music playback from anywhere in the app; created a custom interactive transition to enable dragging it into full screen

Education

College of Charleston, Computer Science, August 2012 - January 2015 (2 years, 5 months)

Side Projects

Full Spread

https://apps.apple.com/us/app/full-spread-10-page-collages/id1439262058

- Built app that lets users design seamlessly scrolling carousels for Instagram

My Top 50

https://apps.apple.com/us/app/my-top-50-artists-and-tracks/id1486113366

- Built app that shows users their listening habits on Spotify

Skills

Swift	Auto Layout	MVVM	Git/Github	Map Kit
Objective-C	Core Data	VIPER	Sketch	Vision
UIKit	Cocoapods	Coordinator	Figma	XCTest
